there is real danger in this country. The unemployed returned soldier does not want to go back to the cross-roads. He would rather wear a high collar and owe rent in Chicago, in many cases, than be a producer of the soil. Labus therefore is in greater demand and there is created a fertile field for the spread of radical socialism which is only a mild name for Bolshevism.

The whole German army, yes, all of Europe, would like to move to America, wouldn't they? We have everything, almost, in the way of opportunity for the production of wealth compared to thempand if we don't restrict our immigration we are likely to attract more and more undesirables, eversthose who can pass the present restrictions and with this leaven the ferment of discord is likely to be developed into industrial war.

NURSES' WAGE INCREASE

A committee was appointed Tuesday A committee was appointed Tuesday night at the regular season of the Menghins and Shelby County Medical society to investigate conditions surrounding the application of Meruphis nurses for increased fees. This committee is comprised of Drs. L. W. Haskell, Jr., Percy Toomba and Brice W. Fontaine, and after a conference with members of the West Tennesses Nurses ussociation, will make its report in two weeks. Talks were made by several physicians and an interesting description of his experiences overseas was given by Jr. Max Henring, who was a major in field service. Dr. W. G. Somerville, who also has returned from service abroad, made a short talk and will make a complete report at a subsequent meeting. Dr. W. R. Wallare was named an additional delegate to the state meeting in Nashville, April 8, f and 10, with Dr. Julian B. Hue as alternate.

It was announced that the local society now is the largest in the state.

GRAIN MARKETS

Sensational Gains Made Corn in Early Trading. With Profits Taken.

With Profits Taken.

CHICAGO, April 2.—Sensational upturns in the value of corn took place today and were accompanied by an excited rush to the buil side of the markets. Notice that exports of wheat had been stopped by the food administration was chiefly responsible as corn would therefore be expected to come into greater request for shipment to Europe as a substitute. Besides the election outcome in Chicago—a victory for the wets—was held to imply an increasing domand for rye and barley by interests that still looked for the defeat of prohibition. Opening prices for corn showed a jump of 1½cc to 6c, with May \$1.41½ to \$1.44, and July \$1.35 to \$1.38½. July made an advance of another cent, but then the market ensed back somewhat as a result of profit-taking.
Outs rose with corn. After opening 5ac to 1½c higher, with May \$5½c to 66½c, the market continued to harden. Provisions ascended to the maximum limit for one day. Strength in the hog market together with the sensational builge in grain furnished the reasons.

COTTON AREA SUMMARY.

Cold weather continues in the central and eastern districts and frosts are again heavy and locally killing in the interior sections east of the Mississippi river. Lower temperatures of 28 to 34 degrees in the interior and 34 to 44 on the coast. Temperatures are mostly near normal in western districts. Light to moderate showers occurred at a few stations in Southern Texas.

FAULKNER COUNTY WILL START ROAD WORK SOON

CONWAY, Ark, April Z. (Spl.)—With hends of three road improvement districts already sold and the engineers working rapidly to complete preliminary plats and profile drawings of the proposed roadways there is every prospect that before the end of the summer, Faulkner will have a partial system of permanent highways connecting the entire county. The Conway-to-Damascus district has outstripped the others in the speed with which it was formed, and it is only a matter of weeks until the commissioners will advertise for bids on actual construction. Twenty-one miles of roadway are proposed by the district. Of great interest to transstate tourists is the proposal to connect Conway and Little Rock by two districts, one in Pulaski and the second in Faulkner, a ompletion of the two will eliminate one of the bad stretches between Little Rock and Fort Smith and will facilitate touring parties.

DOUGHBON'S MAKE HUNS REBUILD RUINED LANDS

CONWAY, Ark. April 2 (Spl.)—
American soldiers set to guard German prisoners are seeing that they do a full share of work, according to Sherman Pierce, of this county, who is now one of the guards over 400 prisoners near Verdun. Pierce says the prisoners insist that the abbreviation. "P. W." for prisoner of war, on their cheats means Papa Wilson. In regard to the work, he writes. "We surely have been working the kaiser's army. We line them up with picks and showels and take them off to work Believe me, we keep them busy, rebuilding what they have torn down."

There volunteered from a deferred class in the draft because he was "German hungry," and it is very likely that the aversion for the race results in the prisoners getting a strict accounting when he is the guard.

SOLDIER IS BURIED.

The Bluff, Ark., April 2. (Spl.)—
The funeral of Allen Hearin, the soldier boy who died at the base hospital, was held Tuesday afternoon from the First Methodist church.

The body was accompanied by a funeral escort from Camp Pike and the nailbearers were all selected from returned soldiers, who wore their uniforms. The active pailbearers were privates or honcoms and the honorary pallbearers were commissioned officers. Nearly all of them were personal friends of the deceased. The body was laid to rest at Bellwood cemetery.

Chicago—The susceptibility of the market to becoming oversold will doubtless tend to restrain bearish operations on the sharp breaks, especially in the May, as long as local stocks remain as light as at present. The reverse is true of oats, in which there is the largest visible in years, and which some of the best judges in the grain trade think will even unly cause a divorce of price action between oats and corn in the event the latter is sustained by light stocks.—Wagner & Co.

EULOGIZES MRS. EDDY IN LECTURE TO SCIENTISTS

"We can never show too grateful a love, too humble an appreciation of the mighty spirit and the tender compassion which impelied Mrs. Eddy to seek and gain the great gift of knowledge and to pour it, like a veritable balm, itno the hearts of a waiting world," declared Miss. Mary G. Ewing, member of the board of lectureship of the Christian Science Mother church, of Boston, in an address which she delivered Tuesday night at the Memphis Christian Science church.

"In the beginning she had to beg and beseech, with tears running down her checks, to be permitted to help the afflicted out of their sufferings," said Miss Ewing, "but today the warm and pulsating affection of tens of thousands of those resurrected from sin and discase bears witness to her magnificent achievement. We love and reverence her for her purity and devotion to good, for her self-abuegation and her generous and loving sacrifice for our welfare, for the keenness of her vision and her intuitive grasp of the deep things of mind. We pay her homage and acknowledge her absolutely unique place in the world's history as the discoverer and founder of Christian Science, and we heed both the spirit and the letter of her earnest admonition, "Follow your leader only so far as she follows Christ."

MEMPHIS WARES WILL BE TALKE DIN MEXICO

Manufacturers and merchants of Memphis who desire to have their lines spoken of at the conference which delegates from the Mississippi Valley association will hold in Mexico City next week with President Carranza, should communicate with Hugh Humphreys, through the Chamber of Commerce. Mr Humphreys will go as a delegate representing the Memphis Chamber of Commerce, which is a member of the Mississippi Valley association. He will leave here Saturday evening and catch the special train, which will carry the delegates to Mexico, at Longview, Tex. at 8 o'clock Sunday morning. He will be accompanied by F. W. Brode and possibly one other delegate from the Chamber of Commerce.

MARCH, 1919, WAS WETTEST RECORDED

The month of March, 1918, was the wettest since the establishment of the local bureau, 12.41 inches of rainfail being recorded in the report made public yesterday by S. C. Emery, metereologist. The nearest approach to the figures of the month just past was in 1878, five years after the bureau was established, when the recorded rainfail was 11.03 inches.

Several different varieties of bulbs, cuttings and plants are also ready for distribution to local sendance.

FROM WALL STREET

Speculative Sentiment Influenced by Foreign and Domestic Developments.

NEW YORK, April 2 - Speculative sentiment was again favorably influenced at the opening of today's stockmarket by foreign and domestic developments, popular pears shares adding substantially to yesterday's gains. Shippings, leathers, tohacces and coppers led the movement, but industrial Alcohol retained its place as the most conspicuous specialty, extending vesterday's material advance by almost three points. Investment rails gave promise of throwing off their long-prevailing apathy and motors and oils joined in the broader dealings of the first half hour.
